WHY ARE WE HERE?

- MedQuest expressed a strong interest in developing a palliative care benefit for its members
- What is the current state of palliative care in Hawaii?
- What would an ideal state of palliative care in Hawaii look like?
- What issues/gaps/areas should we focus on in our next steps to move us toward that ideal state?
- Collect feedback on the definition of palliative care for Hawaii & minimal standards (core elements) that should be included in any program
