

Advance Care Planning (ACP) Advance Directives and Provider Orders for Life-Sustaining Treatment (POLST) Facilitator Training

This training is offered for nurses, physicians, social workers and other clinicians and focuses on communication skills to improve ACP discussions. The class will review key elements and processes related to ACP, advance directives and POLST development.

Course Objectives:

- Apply ACP resources to promote advance care planning discussions
- Engage the multidisciplinary team to patient-centered discussion addressing advance care planning
- Promote patients' knowledge of advance directives including health care power of attorney designation
- Implement correct documentation of POLST - CPR, DNAR, full and limited treatment, time-limited trials and comfort care
- Promote correct process of ACP documents – access and utilization in your organization
