Continuous Care

A Movement to Improve Care

Introduction to the Samoan translation of the Hawai'i POLST Form

POLST (Provider Orders for Life-Sustaining Treatment) is a medical order that gives patients more control over their end-of-life care. Produced on a distinctive bright green form and signed by the patient and her/his physician, Advanced Practice Registered Nurse (APRN), or Physician Assistant (PA) POLST specifies the type of medical treatment that a patient wishes to receive towards the end of life.

This is a Samoan translation of the Hawai'i POLST Form. The translated form is for educational purposes only to be used when discussing a patient's wishes documented on the POLST form. The signed POLST form must be in English so that emergency personnel can read and follow the orders.

This paragraph is not translated and is intended as background for translators/interpreters:

Since July 2022 Physician Assistants (PA) are able to sign POLST in Hawai'i (Act 293). In doing so, Act 293 adds PAs to Physicians and Advanced Practice Registered Nurses (APRNs) as providers authorized to complete and sign a POLST in Hawai'i. This information is integrated into the attached translated POLST form.
