During this second PEACE session for 2025 we will explore the new Hawaii Medicaid Palliative Care Benefit, and the important role social workers play within the interdisciplinary palliative care team caring for people facing serious illness. Please join us to expand our understanding and awareness of these unique contributions that social workers make and how this is now being recognized as critically important by Med-QUEST.

#### CONTINUING EDUCATION:

In support of improving patient care, Hawai'i Pacific Health is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

As a Jointly Accredited Organization, Hawai'i Pacific Health is approved to offer social work continuing education by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program. Organizations, not individual courses, are approved under this program. State and provincial regulatory boards have the final authority to determine whether an individual course may be accepted for continuing education credit. Hawai'i Pacific Health maintains responsibility for this Regularly Scheduled Series (RSS). Social workers completing this series receive 1.0 continuing education credits per session.
